

# EUDORA 2go

Email software for your mobile phone

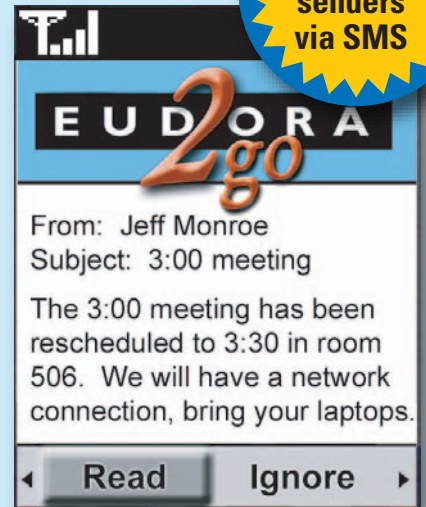

- > Full featured email client
- > PreMail™ - "smart" SMS alert
- > 100 MB Eudora2go.net hosted email account

## Wireless email from a trusted, long-standing brand – Eudora

Eudora2go™ is the end-to-end, wireless email solution that allows you to stay connected with all your email accounts – anywhere.

Eudora2go email client combined with a generous 100 MB Eudora2go.net hosted email service, finally offers an affordable push-email solution for everyone. With PreMail™, you can ensure that priority senders get right through to your handset via an SMS

alert. Read the rest of your mail on your schedule. Eudora2go delivers both the urgency of priority senders, plus the freedom to catch up on the rest of your mail when you prefer. And with your Eudora2go.net account, updating the PreMail list is easy.

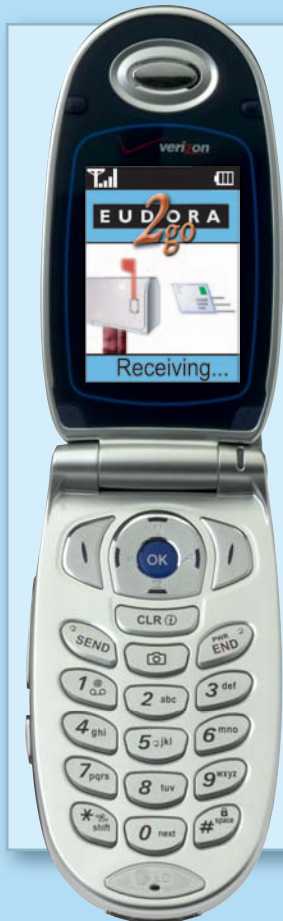

### PreMail notification

## Key Features and Benefits

- PreMail™ allows you a sneak peak at your priority messages, then read or ignore, it's your call.
- PreMail's push technology means you don't have to retrieve your email - the mail you select finds you. A lot or a little, it's your call.
- Eudora2go.net hosted mail server provides 100 MB of email storage.
- Advanced protection from spam and viruses.
- Supports any existing email account, POP3, IMAP with the security of SSL.
- Make the most out of Eudora2go by setting your preferences at Eudora2go.net.
- A greater selection of compatible devices and networks continues to grow. Check [www.eudora.com/eudora2go](http://www.eudora.com/eudora2go) for the latest availability.

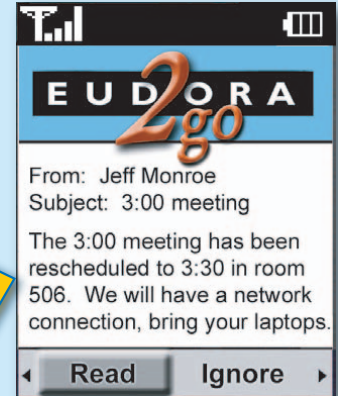

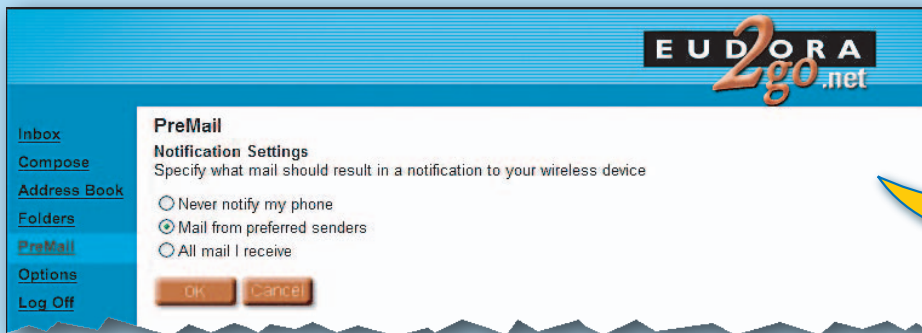

**Eudora2go.net - your mail center for your new or existing email service.**

*No need to change your email address • Set PreMail Feature  
Access your Gmail, Yahoo or other accounts*

### Eudora2go.net Web Interface

Enable PreMail notification and other filter rules in your Eudora2go.net mail center.

### View of PreMail on the phone

You can set as many PreMail senders as you like. Most users choose to see "important" mail pushed to the phone, and the rest of the mail downloaded at a convenient time.

### Other accounts

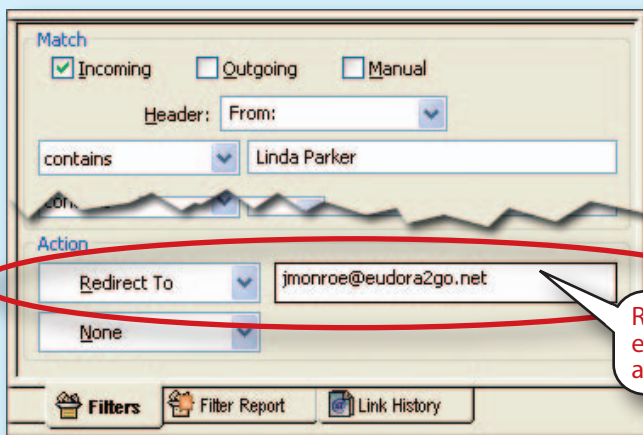

**You don't need a new email address!** Simply forward your mail from your existing Gmail, Yahoo, MSN or other accounts to Eudora2go.net, and you

can utilize the smart PreMail feature. Then set your "reply as" to your current email address. Your contacts will keep emailing you as usual.

*For Eudora Desktop Users... forwarding is a snap...*

### Send Eudora emails to your handset

To send email from your Eudora desktop to your handset, simply redirect select mail, (or all mail) to your Eudora2go.net account.

In Windows Eudora, go to Tools > Filters. In Mac Eudora go to Window > Filters. Then enter as shown in the example above.
